

Scaffolds

Chapter 296-874 WAC

Index

A

Access

- integral prefabricated scaffolds access frames, **400-11**
- ladders, **200-13-14**
- platforms, **200-12**
- ramps and walkways, **200-17**
- stair towers, **200-15**
- stair rails and handrails, **200-16**
- supported scaffolds, erecting or dismantling, **400-6-7**
- surfaces, **200-18**

Aerial lifts, exemption, **100-1**

Altering scaffolds, (*see* erecting or dismantling)

Anchorage

- horizontal lifelines, **200-29**
- suspended scaffolds, additional support lines, **200-35**
- tiebacks, **300-7**
- vertical lifelines, **200-28**

Attachable, hook-on, and portable ladders, **200-13**

B

Bearing supports, outrigger beams, **300-5**

Boatswain's chair

- fall protection, **200-26**
- minimum seat width, **200-9**
- single-point adjustable suspension scaffolds, **300-20-21**

Boom-supported elevated work platforms, exemption, **100-1**

Braking device or locking pawl, **300-9**

Bricklayers' square scaffolds (squares), **400-9-10**

Bricklaying, guardrail exemption, **200-30**

C

Canopy, support lines, **200-35**

Cantilevered loads, platforms, **200-11**

Carpenters' bracket scaffolds, **400-14**

Casters (*see* wheels and casters)

Catenary scaffolds

- fall protection, **200-26**
- suspended scaffolds, wire ropes, **300-15**

Changing direction, platforms planks, **200-10**

Chapter application, scope, **100-1**

Cleats, ramps and walkways, **200-17**

Chicken ladders (*see* crawling boards)

Clips, wire ropes, **300-11**

Competent person

- definition, **200-6; 500-2**
- design and construction, **200-5-6**
- inspections, **200-18**
- manila rope, **200-33**
- metal components, intermixing, **200-6**
- outrigger beams, direct connections, **300-5**
- supported scaffolds, fall protection, **400-7**
- suspended scaffolds, swaying, **300-12**
- training, **200-37**
- weather hazards, **200-23**
- wire suspension ropes, **300-10**

Components, intermixing, **200-6**

Construction and design (*see* design and construction)

Construction or alterations, erecting or dismantling scaffolds, **200-5**

Corrosive substances, **300-13**

Counterweights, suspended scaffolds, **300-5-7**

Couplers (*see* tube and coupler scaffolds)

Crane or derrick, suspended personnel platform, exemption, **100-1**

Crawling boards (chicken ladders)

- fall protection, **200-26**
- general requirements, **400-10**

Crossbraces

- access, prohibited, **200-12**
- guardrail systems, **200-33**
- horse scaffolds, **400-15**

D

Damaged or weakened scaffolds components, **200-19**

Decking or planking, platforms, **200-7**

Defects, inspection, **200-18**

Definitions, **500-1-10**

Scaffolds

Chapter 296-874 WAC

Index

Design and construction

- competent person, **200-6**
- general, **200-5**
- integral prefabricated scaffolds access frames, **400-11, 12**
- ladder jack scaffolds, **400-15-16**
- mobile scaffolds, **400-9**
- outrigger scaffolds, **400-17**
- pole scaffolds, **400-18-19**
- portable, hook-on, and attachable ladders, **200-13**
- suspended scaffolds, **300-8**
- tube and coupler scaffolds, **400-25-28**
- two-point adjustable suspension scaffolds (swing stages), **300-22**

Devices

- emergency, escape and rescue, **300-13**
- suspended scaffolds, support, **300-8**

Dismantling (*see* erecting or dismantling scaffolds)

Distance from work face, fall protection, **200-25**

E

Eccentric loads, supported scaffolds, **400-4**

Electrical hazards, erecting or dismantling scaffolds, **200-22**

Elevating work platforms, exemption, **100-1**

Emergency escape and rescue devices, **300-13**

Employee protection

- energized power lines, minimum separation distance (*table 2*), **200-22-23**
- falling objects, **200-34-35**
- fall protection, **200-24-25**
- platforms, working level height, **200-20-21**
- slipping and tripping hazards, **200-24**
- weather hazards, wind screens, **200-23**
- stair rail systems and handrails, **200-16**

Energized power lines, **200-22-23**

Erecting or dismantling scaffolds

- access, supported scaffolds, **400-6-7**
- construction or alteration, **200-5**
- electrical hazards, **200-22-23**
- supported scaffolds, **400-7-8**
- suspended scaffolds, **200-25**
- platforms, **200-7**
- training, **200-37**

Exemptions

- overall, scope, **100-1**
- platforms, planking and decking, **200-7**

F

Fabricated frame scaffolds (tubular welded frame scaffolds)

- general requirements, **400-11**
- integral prefabricated scaffolds access frames, **400-11-12**

Fall protection

- distance from work face, **200-25**
- employee protection, **200-24-25**
- personal fall arrest system, **200-24-29**
- references, **200-8, 25**
- specific types of scaffolds, **200-26**
- supported scaffolds, erecting or dismantling, **400-7, 8**

Falling object protection, **200-34-35**

Falling hazards, **200-16, 24-29, 34**

Float (ship) scaffolds

- bearers, **300-16**
- fall protection, **200-26**

Forklifts (*see* powered industrial trucks (PITs))

Form scaffolds, **400-14**

Foundations, supported scaffolds, **400-5**

Front-end loaders, supported scaffolds, **400-6**

G

Gasoline-powered equipment, **300-15**

Guardrail systems

- fall protection, **200-24-25**
- general requirements, **200-30**
- falling object protection, **200-34**
- specific scaffolds, **200-26**
- stair and handrails, **200-16**
- stair towers, **200-15**

Guys, ties, or braces, on supported scaffolds, **400-3-4**

H

Handrails and stair rails, **200-16**

Hazards

- electrical, **200-22-23**
- falling objects, **200-34**
- falls, **200-24-29**
- slipping and tripping hazards, **200-24**
- weather, **200-23**

Heat-producing processes, **300-13**

Height, toprail, top edge, **200-30, 31**

Scaffolds

Chapter 296-874 WAC

Index

Hoists, loads, **200-22, 300-8-9**
Hook-on, portable, and attachable ladders, **200-13**
Horizontal and vertical planes, supported scaffolds, **400-3-4**
Horizontal lifelines, **200-29**
(*see also* personal fall arrest system)
Horse scaffolds, **400-15**

I

Independent support lines (*see* support lines)
Inspections, **200-18**
Installations
 guardrail systems, **200-34**
 midrail, **200-32**
 supported scaffolds, **400-3, 4**
Insulation, suspension ropes, **300-14**
Integral prefabricated scaffolds access frames, **400-11-12**
Interior hung scaffolds, roof structures, **300-17**

J

Job-made ladders
 ladder jack scaffolds, **400-15-16**
 step, platform, and trestle ladder scaffolds, **400-23-24**

L

Ladder jack scaffolds, **200-9, 26; 400-15-16**
Ladders
 portable, hook-on, and attachable, **200-13**
 stairway-type, **200-14**
 type 1 or type 1A ladders, **400-15-16**
 working level height, **200-20-21**
Lanyard, attached, personal fall arrest system, **200-27**
Large area scaffolds, stilts and ladders, **200-20-21**
Lean-to scaffolds, **200-5**
Lengths
 platforms, **200-11**
 suspension ropes, **300-9**
Lifelines, horizontal, **200-28**
(*see also* personal fall arrest system)

Loads

cantilevered, **200-11**
eccentric, **400-4**
general, **200-19**
hoisting, **200-22**
sag, **200-11**

Locking devices, horizontal lifelines, **200-29**

M

Manila rope
 boatswain's chair, **300-21**
 competent person, **200-33**
Manually propelled elevating work platform, exemption, **100-1**
Manufacturer's instructions, loading scaffolds, **200-19**
Masons' multi-point adjustable scaffolds, outrigger beams, **300-5**
Masons' multi-point adjustable suspension scaffolds, **300-18**
Maximum intended load, supported scaffolds and scaffolds component, **200-19; 400-3**
Midrails, installation, **200-32**
(*see also* guardrail systems)
Minimum width requirements, **200-9**
Minimum strength requirements, scaffolds components, **200-19**
Mobile scaffolds
 moving, **400-8-9**
 support, proper, **400-6**
Moving scaffolds
 mobile scaffolds, **400-8-9**
 employee protection, **200-20**
 erecting and dismantling, **200-5**
Mud sills, **400-5**
Multi-level suspended scaffolds, support lines, **300-17**
Multi-point adjustable suspension scaffolds
 fall protection, **200-26**
 platforms, passage, **300-18**
 swaying of suspended scaffolds, **300-12**

Scaffolds

Chapter 296-874 WAC

Index

N

Nationally recognized testing laboratory, **300-8, 22**

Needle beam scaffold
securing, **300-19**
fall protection, **200-26**

O

Outrigger beams, **300-5-6**
Outrigger scaffolds, **400-17**
Overhand bricklaying, guardrail systems, **200-30**

P

Personal fall arrest systems
anchorage, **200-28-29**
attached by lanyard, **200-27**
fall protection, **200-27-29**
platforms, work face, **200-25**
Personnel platforms, exemptions, **100-1**
Planking or decking, **200-7**
Planks, laying platforms, changing direction, **200-10**
Plastering and lathing operations, **200-25, 27-29**
Platforms
general, **200-7-12**
ladders, supported scaffolds, **400-23-24**
multi-point adjustable suspension scaffolds, **300-18**
rest, on portable, hook-on, and attachable ladders, **200-13**
overlapping, abutting, or joining, **200-10**
Personal fall arrest system, **200-24-29**
Pole scaffolds, **400-18-19**
Portable, hook-on, and attachable ladders, **200-13**
Power
lines, energized, **200-23**
system, mobile scaffolds, **400-8-9**
Powered Industrial Trucks (PITs),
moving mobile scaffolds, **400-8-9**
personnel platforms, **100-1; 400-6**
Prefabricated scaffolds access frames,
integral, **400-12-13**

Prohibitions

wire suspension ropes, **300-10**
gasoline-powered equipment, **300-15**

Pump jack scaffolds

brackets, braces and accessories, **400-20-21**
minimum platform width, **200-9**

Q

Qualified person

definitions, **500-6**
designing scaffolds, **200-5**
intermixing or modifying components, **200-6**
training scaffolds workers, **200-36**

R

Ramps and walkways, **200-17**
Rated load or maximum intended load, scaffolds
components, **200-19**
References, fall protection, **200-8, 25**
Registered professional engineer, **200-20; 400-11, 17-18**
Repairing scaffolds, **200-19; 400-21-22**
Rest platforms, portable, hook-on, and attachable ladders, **200-13**
Retraining, **200-38**
Riser height, stair towers (note), **200-15**
Roof bracket scaffolds
minimum platform width, **200-9**
supported scaffolds, **400-23**
Roof structures, interior hung scaffolds, **300-17**
Ropes, suspension, **200-29**

S

Safe access (*see* access)
Sag, platforms, **200-11**
Scaffold, definition, **500-7**
Scaffolds hoists
general requirements, **300-8-9**
suspension rope, **300-9**
Scaffolds inspections, competent person, **200-18**
Scaffolds stairway (*see* stair towers)
Scaffolds components
damaged or weakened, minimum strength requirements, **200-19**
inspection, **200-18**
intermixing, **200-6**
maximum intended load or rated load, **200-19**
minimum strength requirements, **200-19**

Scaffolds

Chapter 296-874 WAC

Index

- Scaffolds, moving horizontally, exemptions, **200-20**
- Scope, chapter application, **100-1**
- Self-contained adjustable scaffolds, fall protection, **200-26**
- Self-propelled elevating work platforms, exemption, **100-1**
- Sheaves, two-point adjustable suspension scaffolds (swing stages), **300-22**
- Ship scaffolds (*see* float (ship) scaffolds)
- Single-point adjustable suspension scaffolds
 - general requirements, **300-20-21**
 - fall protection, **200-26**
- Single-point or two-point adjustable suspension, vertical lifelines, **200-28**
- Slip-resistant surfaces
 - stairway-type ladders, **200-14**
 - stair towers treads and landings, **200-15**
- Slipping and tripping hazards, employee protection, **200-24**
- Snow and ice, weather hazards, **200-24**
- Specific types of scaffolds, **200-26**
- Stair towers (stairways), **200-15-16**
- Stairway-type ladders, **200-14**
- Stall loads, hoists, **300-8**
- Steel or plastic banding, toprail or midrail, **200-32**
- Step, platform, and trestle ladder scaffolds, **400-23-24**
- Stilts and ladders, large area scaffolds, **200-20-21**
- Stonesetters' multi-point adjustable suspension scaffolds, **300-18**
- Strength requirements, minimum
 - damaged or weakened scaffolds, **200-19**
 - supported scaffolds, **400-3**
 - suspended scaffolds, **300-3-4**
 - suspension ropes, **300-3-4**
- Structural integrity, **200-6, 18**
- Supervising, moving scaffolds, **200-5**
- Support devices, tiebacks, suspended scaffolds, **300-8**
- Support lines
 - suspended scaffolds with canopy, **200-35**
 - used with lifelines, **200-28-29**
- Supported scaffolds
 - bricklayers' square scaffolds (squares), **400-9-10**
 - carpenters' bracket scaffolds, **400-14**
 - crawling boards (chicken ladders), **400-10**
 - definitions, **100-1; 500-8**
 - erecting or dismantling, **400-6-7**
 - fabricated frame scaffolds (tubular welded frame scaffolds), **400-11-12**
 - form scaffolds, **400-14**
 - horse scaffolds, **400-15**
 - integral prefabricated scaffold access frames, **400-11-12**
 - ladder jack scaffolds, **400-15-16**
 - mobile, **400-6, 8-9**
 - outrigger, **400-17**
 - pole scaffolds, **400-18-19**
 - preventing tipping, **400-3-4**
 - pump jack scaffolds, **400-20-21**
 - repair bracket, **400-21-22**
 - roof bracket, **400-23**
 - step, platform and trestle ladder, **400-23-24**
 - supported properly, **400-5, 6**
 - tube and coupler scaffolds, **400-25-28**
 - tubular welded frame scaffolds (*see* fabricated frame scaffolds)
 - window jack scaffolds, **400-29**
- Suspended scaffolds
 - (*see also* boatswain's chair)
 - catenary scaffolds, **300-15**
 - counterweights, **300-6**
 - definitions, **100-1, 500-9**
 - equipment, support lines, **200-35**
 - emergency escape and rescue devices, **300-13**
 - fall protection, erecting or dismantling scaffolds, *reference*, **200-25**
 - float (ship) scaffolds, **300-16**
 - gasoline powered equipment, prohibited, **300-15**
 - hoists, **300-9**
 - interior hung, **300-17**
 - multi-level, **300-17**
 - multi-point adjustable suspension scaffolds, **300-18**
 - needle beam scaffolds, **300-19**
 - outrigger beams, **300-5, 6**
 - single-point adjustable, **300-20-21**
 - strength requirements, **300-3-4**
 - support devices, **300-8**
 - support lines, with canopy, **200-35**
 - suspension ropes, **300-13**
 - tiebacks, **300-7**
 - two-point adjustable suspension scaffolds (swing stages), **300-22**
 - two-point and multi-point suspension scaffolds, **300-12**
 - U-bolt clips, **300-12**
 - welding, **300-14**
 - wire rope, **300-10-11**

<http://www.lni.wa.gov/>

Index

Scaffolds

Chapter 296-874 WAC

Index

Suspension ropes, independent support lines, anchorage, **200-28-29, 35**
Swaying, two-point adjustable suspension scaffolds (swing stages), **300-12**
Swing stages (*see* two-point adjustable suspension scaffolds)

T

Tables

minimum platform width (*table 1*), **200-9**
minimum separation distance from energized power lines (*table 2*), **200-22**
minimum toprail and midrail strength requirements (*table 3*), **200-32**
suspended scaffolds strength requirements (*table 4*), **300-3,4**

Tag lines, controlling loads, **200-22**

Testing hoists, nationally recognized testing laboratory, **300-8**

Testing platforms, nationally recognized testing laboratory, **300-22**

Tiebacks

general requirements, **300-7**
outrigger beams, **300-5**
support devices, **300-8**

Tipping platforms, design and installation, **200-11**

Tipping, prevention

mobile scaffolds, when moving, **400-8**
supported scaffolds, **400-3-4**

Toeboards, **200-34-35**

Top plate scaffolds, minimum platform width, **200-9**

Toprail and midrail

platforms, **200-30-33**
stairways, **200-16**
(*see also* guardrail systems)

Training

erect, dismantle, operate or maintain, **200-37**
general requirements, **200-36**
retrain, **200-38**

Tripping and slipping hazards, employee protection, **200-24**

Trestle ladder scaffolds, **400-23-24**

Tube and coupler scaffolds, **400-25-28**

Tubular welded frame scaffolds

(*see* fabricated frame scaffolds)

Two-point adjustable suspension scaffolds

fall protection, **200-26**

swing stages, **300-22-23**

Two-point and multi-point suspension scaffolds, swaying, **300-12**

Types of scaffolds, specific, **200-26**

Type 1 or Type 1A ladders, **400-15-16**

U

U-bolt clips, suspended scaffolds, **300-12**

Uninsulated welding lead, suspension ropes, **300-14**

Unstable objects

supporting scaffolds, **400-5, 6**
used for additional height, **200-20-21**

Uprights, supported scaffolds, **400-5**

V

Vertical lifelines, **200-28**

W

Walkways

access, **200-17**
fall protection, **200-26-27**
minimum width, **200-9**
planking or decking, **200-7**

Weather hazards, **200-23-24**

Welding

suspended scaffolds, **300-14**
suspension ropes, **300-13-14**

Wheels and casters, mobile scaffolds, **400-6,8**

Wind screens, employee protection, **200-23**

Winding drum hoists, scaffolds hoists, **300-9**

Window jack scaffolds, **400-29**

Wire ropes (*see also* wire suspension rope)

catenary scaffolds, **300-15**
clips, suspended scaffolds, **300-11-12**
competent person, **300-10**
connections, **300-11**

Wire suspension ropes

condition, **300-10**
connections, **300-11**

Wood platforms, **200-7**

Wood poles, pump jack scaffolds, **400-20-21**

Wooden-bracket form scaffolds, **400-14**

Working level height, increasing, **200-20-21**
